

We've got to get along

By Matthew Tyler 2011 ©

**Get along
Stop falling out
We've got to get along
Please try to get along
Stop falling out
We've got to get along**

People take a look around you
Everybody is just the same
People it may astound you
We're all passing the same old blame

Close your eyes, imagine what could be if we all agreed
Work it out 'cause life's too short to waste
Forgive and then you can live

**We've got to get along
Stop falling out
We've got to get along
Please try to get along
Stop falling out
We've got to get along**

Listen and pay attention
Sometimes we can all makes mistakes
Take some responsibility
Saying sorry can make your day

Close your eyes, imagine what could be if we all agreed
Work it out 'cause life's too short to waste
Say 'Hi' and never 'Goodbye'.

**We've got to get along
Stop falling out
We've got to get along
Please try to get along
Stop falling out
We've got to get along**
