

What's Beyond The Stars?

As I lay on my back
And stare at the sky
I see a shooting star
Out the corner of my eye

And we wonder...
Will we ever soar into space?
And we wonder...
Is there any more to this place?
And we wonder...
Will there be new life to embrace?

As we fly and finally run free...

What's beyond the stars?
Does anybody know?
Maybe one day
We'll fly away
Who can say where we may go?

And each day we dream of leaving earth
And soaring straight to Mars!

Is anybody out there?
[anybody out there?]

Is anybody out there?
[anybody out there?]

Is anybody out there?
[anybody out there?]

Is there life beyond the stars?
